PROFILE

First-year Computer Science Engineering student at IIIT Sri City with basic programming and web-development skills. Building projects through hackathons, with interests in AI/ML, cybersecurity, and web development. Currently learning JavaScript and React through hands-on practice.

EDUCATION

Indian Institute of Information Technology, Sri City — **2026 - 2030**
B.Tech - Computer Science Engineering

TECHNICAL SKILLS

Programming languages	Basic: C, C++, Java, Python
Web development	Basic: HTML, CSS, JavaScript
Library / framework	Basic: React
Tools	Basic familiarity: Git, GitHub, VS Code, Linux / terminal

PROJECTS

Land Acquisition Delay Analytics | Python, scikit-learn, FastAPI, Leaflet

- **Contributed to a predictive web-application concept to flag land-acquisition projects at risk of delay.**
- Worked on model/backend integration and map-based visualization with the BitsnBytes team.
- **Cleared college internal selection for SIH Round 1; internal Round 2 is pending.**

FPGuard-AI — Network Intrusion Detection Prototype | Python, scikit-learn, Streamlit

- **Built a machine-learning prototype focused on reducing false positives in network intrusion alerts.**
- **Implemented model comparison, validation-based threshold selection, and error-analysis workflows.**
- **Qualified for Round 2 of the Cyber AI Hackathon; received a participation certificate.**

Kavach — BIOS Hackathon Project | Web development

- **Contributed to development and coding for a hackathon project focused on a practical user-facing web experience.**
- **Project submitted; results pending.**

HACKATHONS & ACTIVITIES

- **Smart India Hackathon (SIH) — BitsnBytes; cleared college internal selection for Round 1, with internal Round 2 pending.**
- **Cyber AI Hackathon — qualified for Round 2; participation certificate received.**
- **BIOS Hackathon — Kavach project submitted; awaiting results. | BitnBuild Hackathon — team project contributor.**

AREAS OF INTEREST

AI/ML | Cybersecurity | Web Development | Systems & Programming | Linux | Hackathons
